The following is an excerpt from the book...

“STATEMENT OF PURPOSE

*Someone very wise once said, “Life is God’s Gift to us and what we do with our life is our gift to God.” Throughout my life’s journey, I have worked hard to show appreciation for such a gift. The reality is that it has not always been easy. I have made numerous mistakes, celebrated many triumphs, and climbed out of multiple valleys. Actually, my story is probably no different from yours. On this journey called life, none of us are exempt from the many distractions that can get in the way of living the life God intended for us. **The lesson for me was learning these distractions are necessary pieces of our legacy, cleverly disguised as permanent disruptions. These distractions are merely life lessons that take the form of “temporary inconveniences” which bring opportunities to grow to the next best version of ourselves!** As I was having this discussion with one of my friends while preparing for an event, God placed the following words in my spirit “ACTION ACTION... DESPITE THE DISTRACTION!!!” This has become my personal battle cry. Each time I share it from the stage, it resonates with the audience and I hope it does with you also. If I had quit when facing the various distractions of my life, we wouldn’t be connected now.”*
